

2023-24 IST Community-wide Goal: Understanding and Promoting the Diversity of Knowledge (IBLP)

Our community welcomes and values the multiplicity of interests, ideas, and beliefs and values that exist within our international community living here in Tianjin, and beyond, and we are committed to providing a safe, open-minded, and inclusive environment for all. In embracing physical and socio-cultural diversity, we also champion diversity of thought and the critical thinking and open-minded inquiry and learning across a range of topics and disciplines that deepens conceptual understanding and intellectual growth and independence. We listen carefully when considering alternative points of view, and we are willing to grow and change as a result of sincere intellectual inquiry and discourse. We will engage with issues and ideas that have local and global significance, we challenge injustice, and we take personal and professional responsibility for our roles, responsibilities and actions, and their consequences.

Dear Parents

It was terrific to see such a strong turnout on Wednesday at the PFO Meeting and having the opportunity to share just some of the many exciting events and activities that are taking place here at school. I hope that those parents that then attended the parent education forums found them to be equally informative!

Last weekend we were delighted to host 35 students and teachers from ACAMIS schools who travelled to Tianjin to learn about our **Literacy Lab** and to see how our students are able to independently manage the lab and the peer coaching services that it provides to our students. I was incredibly proud to see our students presenting so confidently and articulately! Kudos too, to Mr Schaff.

All parents should have received an invitation this week to attend a **parent lecture on Monday at 11AM in the Han Teacher Center on generative Artificial Intelligence**. The lecture will be delivered by Holly Clark, a renowned international expert on technology in schools and the keynote speaker at the ACAMIS Technology Conference that we are hosting at IST this weekend ... with some 170 teachers from across China in attendance! I strongly encourage you to make the time to come into school on Monday to listen to Holly; I am confident that you will find her to be a most engaging and inspiring speaker. Transportation has been arranged.

As you know our community safeguarding protocols require that we hold routine evacuation drills, **and yesterday we held out first EARTHQUAKE!!! drill for the year**. All students were evacuated and registered in just 4 minutes 16 seconds! I was impressed by the general conduct of students and adults alike in what was an extremely pleasing practice of this important protocol.

A reminder that **we will be celebrating UN Day at school this coming Tuesday!** A rough overview of the schedule is provided here for your reference!

Upcoming World Celebration Dates...

Monday - October 23, 2023 Double Ninth Festival/ Senior Citizens' Day

Held on the 9th day of the 9th lunar month, Chongyang Festival is also called Double Ninth Festival. The ninth day of the ninth month is the day that has two Yang numbers, and 'chong' in Chinese means double which is how the name Chongyang was created. In the year of 1989, Chongyang Festival was designated as Senior's Day - a day to respect the elderly and to let them enjoy themselves.

Tuesday - October 24, 2023 United Nations Day

United Nations Day is devoted to making known to people of the world the aims and achievements of the United Nations Organization. United Nations Day is part of United Nations Week, which runs from 20 to 26 October. Several international schools (including IST) throughout the world also celebrate the diversity of their student body on United Nations Day.

Thursday - October 26, 2023 Austrian National Day

Every year on October 26 Austrians celebrate their country's declaration of permanent neutrality after World War II and its regained status as an independent and sovereign nation on October 26, 1955.

We look forward to seeing you all next week!

I wish you all an enjoyable weekend. (I will be here at school enjoying the conference!)

Dear IST Parents,

We are delighted to announce an upcoming event at IST that we believe will be of great interest and relevance to you as parents.

We are excited to invite you to a special presentation on the topic of Generative AI in educational settings. Generative AI refers to the development and utilization of artificial intelligence systems that have the ability to create or generate new content, such as text, images, and music. This emerging technology has tremendous potential to enhance educational experiences and transform the way we approach teaching and learning.

Date: October 23, 2023

Time: 11:00 a.m. to 12:00 p.m.

Location: Teacher Center Community Room in Han Building

Here are the bus arrangements:

- 1 bus will depart Aocheng at 10:20AM, then Garden Villa at 10:25AM
- 1 bus will depart Riz-Carlton at 10:10AM, then Arcadia at 10:20AM
- 2 buses will return to the above locations at 12:10PM

During the presentation, we will be hosting Ms. Holly Clark, an esteemed expert in the field of technology infused classrooms and the keynote speaker for the ACAMIS Technology Conference, who will provide an overview of this fascinating technology and its applications in educational settings. Holly will work with IST teachers, students, and parents to discuss the benefits and challenges of using Generative AI, as well as its ethical considerations. Additionally, she will highlight real-world examples of how Generative AI is being integrated into educational curricula to foster creativity, critical thinking, and problem-solving skills among students.

We believe that attending this event will provide you with valuable insights into the role of Generative AI in education, and equip you with a deeper understanding of how your children may benefit from this cutting-edge technology. It is our hope that this event will empower you to engage in meaningful conversations with your children about the potential of Generative AI in their academic journey.

We kindly request that you mark your calendars for this event and make every effort to attend. We believe your participation will contribute to a more informed and supportive IST community that is committed to providing the best educational opportunities for our students.

Thank you for your ongoing support of our school and your dedication to your child's education. We look forward to welcoming you on October 23rd and sharing this enlightening presentation on Generative AI in educational settings.

Warmest regards,

Hao Zhai
Technology Director

Elementary Parent Teacher Conferences

Wednesday 25 October 14:30 to 18:30

Thursday 26 October 15:30 to 18:30

We are looking forward to meeting with you to discuss your child's progress and future goals! Parent Teacher Conference invitations will be sent home on October 16 and truly value every family attending so that we can strengthen the home-school partnership. For families with more than one child, we pre-scheduled your appointments so they are conveniently timed. To add to the success of this event, we rely on all families being on time for their conference and also departing on time. As always, teachers are happy to schedule another meeting time if there is a need to continue the conversation beyond this initial conference.

Confirm or Change Your Homeroom Appointment

Parents are asked to return the reply half of the invitation as soon as possible to confirm the appointment or to request a different date or time.

Specialist Teachers

World languages, P.E., music and art teachers are available for appointments, but are not expected to meet with every family. The invitation explains how parents can contact specialist teachers to request an appointment.

Child Minding

There will be child minding for school aged children in the K-2 playroom and 3-5 Clubhouse. You are welcome to make use of this service during your conference. If your child is remaining at school at the end of the school day, you must be present at school to take them from their homeroom class to the playroom or clubhouse. This child-minding service is provided only for families that have scheduled meetings; it is not a play time for all students.

the Parent Partnership

Two of the most basic and fundamental needs teens feel are the need to fit in and need to be their own person.

When children struggle to fit in, parents may feel angry, powerless and afraid. We want to help, but we don't always know how.

Sometimes parents will jump in and try to solve their child's social problems. But I don't recommend that. It just isn't helpful. Fighting kids' battles for them can lead them feel more victimized and even poorer at socializing.

That doesn't mean you don't have a powerful role to play. When a child is having trouble fitting in at school or in social settings, the best thing you can do is to show kids that they are accepted and loved for who they are at home.

WHEN YOUR CHILD SAYS, "I DON'T FIT IN!" SAY ...

"That sounds really tough.
I'm here to listen."

"Maybe we should find another way
to meet kids who make you feel good."

"I know you are capable of making friends
who see all the great qualities in you."

"You can set boundaries
and stand up for yourself."

"You do not have to accept someone's
negative opinion of you as truth."

"You are not alone. Many kids feel the same
way. I've even felt that way in my life."
